Career Objective

- Seeking a web development role where I can apply my skills in HTML, CSS, JavaScript, and responsive design to build engaging and user-friendly websites. I aim to contribute to innovative projects by delivering high-quality, efficient code and seamless digital experiences.

Education

- **B.Tech in Computer Science and Engineering** — *2023 - Present*
  Sathyabama University, Chennai — **CGPA: 9.2/10**

- **HSC in Physics, Chemistry, and Mathematics** — *2021*
  Aditya College, Andhra Pradesh — **CGPA: 9.5/10**

- **SSC** — *2020*
  Bhashyam College, Andhra Pradesh — **CGPA: 10.0/10**

Skills

- **Programming Languages:** HTML, CSS, JavaScript, Python

- **Frameworks:** ReactJS

- **Development Tools:** Jupyter Notebooks, VS Code, GitHub

- **Soft Skills:** Communication, Time Management, Problem Solving, Teamwork

Projects

- **Amazon E-commerce Store**
  Created an Amazon-like e-commerce store with product listings, search functionality, and a shopping cart feature using HTML, CSS, and JavaScript. Implemented responsive design and optimized user experience to simulate an online shopping platform with smooth navigation.

- **Movie Search Application**
  Developed a movie search application integrated with a movie API (like TMDB) that allows users to search for movies and view details such as titles, ratings, and posters. Created a responsive grid layout for displaying movie cards using HTML, CSS, and JavaScript. The app fetches real-time data from the API and displays it dynamically, providing a seamless and interactive user experience.

- **GitHub Repository**
